

## Mood: SPRING 2019 – Bond & Corriedale

Submit proposals to: [jacey@plymagazine.com](mailto:jacey@plymagazine.com)

Proposals due by: **March 1, 2018**

Springtime is fiber time here at PLY, and Spring 2019 is no exception. For the first issue of the year, we are looking at 2 big breeds: **Bond and Corriedale**. These 2 breeds share a heritage, and we want to explore it: how they are alike and how they are different. Do you have something to share about these sheep? We need interesting and exciting **breed studies** on each, articles describing their differences and similarities, and a little help for spinners on what they're perfect for.

**Corriedale**, a medium fiber with so much to offer – what are its nuances that tempt even a seasoned spinner and fleece connoisseur? It's also oft considered a **perfect fiber for a beginner**; tell us whether or not this is true and why. **Is it also true of Bond?** Why? Do you breed, raise, shear either of these breeds? Do you know about scouring, prepping, spinning, or finishing them? If you have a passion for either breed, we want to hear from you? Want to talk about **Bond's bold crimp**? We'll listen! Want to tell our readers about **Corriedale and twist** – what's too much or too little for different projects, what's just right? What happens when you spin woolen, worsted, semi? Where do twist and technique intersect and what projects sit perfectly at that intersection?

**Designers: we need several projects!** All we require is they be fantastic and feature one of these 2 versatile wools. Do you have an idea for a springtime project and enjoy working with handspun yarn? We'd love to work with you (even if you don't spin)!

**Shepherds and dyers: we always need great fiber for our issues;** if you raise or dye either Bond or Corriedale and would like to work with us on this issue, get in touch!

Proposals of articles and projects are due by **March 1, 2018**. We'll get back to you in April and final pieces are due **Sept 1, 2018**.

Thanks,

**Jacey**
